

Offer – Specialized internship in small animal cardiology

Academic year 2024-2025

RESPONSABILITIES

- Assist the veterinary cardiology team in diagnosing and treating cardiac conditions in small animals
- Conduct patient evaluations, including history taking, physical examinations, and diagnostic testing under supervision during daily appointments
- Collaborate with other veterinarians to develop treatment plans and provide patient care for emergency and hospitalized patients.
- Participate in rounds, case discussions, and journal club
- Communicate effectively with colleagues, clients, and referring veterinarians to ensure comprehensive patient care and client education.
- Maintain accurate medical records
- be involved in clinical teaching of students and interns.

THE VETERINARY TEACHING HOSPITAL

Our hospital is fully-equipped including an ultrasound unit dedicated to the cardiology department with 3D probe, CT scan, MRI, C-arm. Our team includes more than 20 specialists in various fields. The cardio team includes 1 senior and 2 residents. We are routinely conducting advanced cardiac diagnostic imaging, and interventional procedures. Our Caseload is around 1500 cases a year.

COMPETENCIES

- French language: Level B2
- Excellent communication skills, both verbal and written, to interact with colleagues and clients.
- Ability to work independently with minimal supervision and as part of a multidisciplinary team.
- Demonstrated ability to prioritize tasks, manage time efficiently, and handle multiple responsibilities simultaneously.
- Dedication to student teaching and continuous learning
- Must be a motivated and hard-working individual with a passion for animal health and welfare.

Would you like to join us ?

Your applications should include a curriculum vitae, a covering letter, and 2 letters of reference. All applicants are encouraged to schedule a visit to the clinic. Selected candidates will be notified for an interview scheduled on the 19th of April. Applications (including letters of reference) should be e-mailed to Nadine Fis (nadine.fis@uliege.be) **by March 31, 2024**. For further information, please contact Dr AC Merveille (acmerveille@uliege.be)
