

ENVT- National Veterinary School of Toulouse, France

Junior Clinical Fellow in Equine Medicine and Surgery

We would like to invite suitable candidates for a Junior Clinical Fellow vacancy in veterinary equine medicine and surgery. This is a full time post for one year to replace an existing post.

This is an excellent opportunity to gain equine experience prior to residency application.

The post holder will join a new, young and dynamic team with the aim of developing the service. Our caseload should rapidly grow and comprises mostly sport-, and pleasure horses.

Good interpersonal and learning skills are essential. For international applicants, it is essential that the successful applicant has a registerable veterinary degree in France, as well as an appropriate work permit. Successful applicants need to speak basic French language or demonstrate willingness to become rapidly fluent, as client and student interactions typically are in French.

Remuneration is about 1400 €/month, for a 5-day working week (37.5 hours/week), with 42-day annual leave. Clinical out of hours work would be expected and accordingly paid. The position will be for 12 months from 1st September, 2019.

Please submit written applications (CV, letter of intent and contact details of 2 references) to mc.cadiergues@envt.fr

Review of applications will continue until the position is filled.

Prof Marie-Christine CADIERGUES

Interim Head of Small Animals and Equine Department
