

ENVT- National Veterinary School of Toulouse, France

### **Junior Clinical Fellow in Anesthesia**

We would like to invite suitable candidates for a Junior Clinical Fellow vacancy in veterinary anesthesia. This is a full time post for one year to replace an existing post.

This is an excellent opportunity to gain anesthesia experience prior to residency application.

The post holder will join the anesthesia team and work with a dynamic team of one senior clinician, one ECVAA resident, one junior clinician and two interns. There will be an opportunity to gain experience in a wide range of general anesthesia cases together with difficult/challenging cases under close supervision with the Consultants.

ENVT Small Animal Hospital is a busy academic hospital with the full range of medical specialties. Our anesthesia case spectrum includes mostly dogs and cats but horses, farm animals and exotic animals are also potential cases.

Good interpersonal and learning skills are essential. For international applicants, it is essential that the successful applicant has a registerable veterinary degree in France, as well as an appropriate work permit. Successful applicants need to speak basic French language or demonstrate willingness to become rapidly fluent, as client and student interactions typically are in French.

Remuneration is about 1400 €/month, for a 5-day working week (37.5 hours/week), with 42-day annual leave. Clinical out of hours work would be expected and accordingly paid. The position will be for 12 months from 1st September, 2019.

Please submit written applications (CV, letter of intent and contact details of 2 references) to [mc.cadiegues@envt.fr](mailto:mc.cadiegues@envt.fr)

Review of applications will continue until the position is filled.

Prof Marie-Christine CADIERGUES

*Interim Head of Small Animals and Equine Department*
