Activities related to the PhD training programme: 15 ECTS are to be obtained for activities related to doctoral research but not restricted to the doctoral thesis project.

The type of activity is subject to the approval of the Doctoral College which has the right to define the final number of ECTS credited based on the table below and proof of participation.

The 15 ECTS for PhD-related activities must be obtained for the application for the appointment of the jury for the doctoral training dissertation, unless the Doctoral College waives it. In which case, these 15 ECTS will have to be obtained at the latest for the request for designation of the jury for the private defence of the doctoral thesis. The doctoral training certificate will be awarded after validation of the 60 ECTS required for doctoral training.
