CLINICAL POSITION IN AQUACULTURE

FULL-TIME REGULAR POSITION – >90%
MINIMUM 3 YEARS TO INDETERMINATE DEPENDING ON FUNDING.

Faculté de médecine vétérinaire – Direction
Service de diagnostic

Responsibilities

Perform various teaching duties (up to a maximum of 90% of the workload), including:

− Participate in clinical teaching while responding to the needs of fish farmers and their veterinarians. For example: phone consultation, laboratory diagnostic, farm visits and prescriptions;
− Participate in the training of fish farming veterinarians;
− Supervise students enrolled in internship programs;
− Participate in the teaching of students at the veterinary school;
− Evaluate students’ learning;
− Provide academic guidance and assistance to students.

The candidate will also be required to perform duties related to research and/or the development and/or the functioning of the institution (a minimum of 10% of the workload)

Requirements

− Doctor of veterinary medicine (DVM) degree or the equivalent;
− Training or experience in aquaculture and interest in clinical teaching at the university;
− License to practice issued by the Ordre des médecins vétérinaires du Québec;
− Sufficient knowledge of French (written and spoken).

Additional information

The work schedule is flexible and includes activities on weekday evenings and weekends for urgencies.
