MASTER COMPLÉMENTAIRE EN MEDECINE VÉTÉRINAIRE SPÉCIALISÉE,
OPTION EQUIDÉS

INTERNSHIP IN EQUINE CLINICAL SCIENCES

The faculty of veterinary medicine of the University of Liège is offering an One Year-Internship in equine clinical sciences. The intern works under the direction of recognized specialists (ECVS, ECEIM, ECVA, ECVO, ECVDI, ECAR). The internship includes 48 weeks of clinical rotations in equine anaesthesiology, surgery, internal medicine, sports medicine, diagnostic imaging and reproduction. The work includes emergency duty for admissions (yearly ± 300 colic admissions, and other cases for internal medicine, surgery and ophtalmology) and surgeries as well as care of in-patients and intensive care. Furthermore, the interns will have to write a thesis and follow 30 hours of seminars and courses.

The internship will begin on **September 1st 2026** and last until **August 31th 2027**.
All applicants need to have graduated in Veterinary medicine but no longer than 4 years ago. Basic knowledge of the French language is required. The selected candidates should begin to work 2 weeks before the official start of the program for adaptation and training to the work in the clinic.

Applications should include a letter of motivation, a curriculum vitae with a photo and three letters of recommendation and they have to be sent to Ms. Nadine FIS, Equine clinic, Faculté de Médecine Vétérinaire, Université de Liège, Bât. B 41, Sart Tilman, B 4000 Liège before **February 15th 2026**. For candidates external to the faculty in Liege, a 7-10 days duration externship is necessary for the applicant before the deadline for application (15/02/2027).

The applicants preselected on the base of their written application will be invited to an interview at the Faculty.
